LASER RANGEFINDER - DISC GOLF

# EDGE DISC GOLF RANGEFINDER

## Measures In Feet With Height Mode For Quick Target Readings

### HEIGHT MODE TECHNOLOGY FOR VERTICAL RISE ON THE COURSE

Height mode provides vertical distance between you and the target

### MEASURES IN FEET AND METERS

Now measures in feet for faster reference during competition. Who needs math class!

### FAST RANGING WITH SCAN MODE

Updates range 4x per second for fast, reliable ranging across all distances on a hole. Great for understanding the distance of elements around the fairway and the basket quickly.

### EASY TO USE, ONE BUTTON DESIGN

Only a single button is required to operate the Sport 850. Press once to power and again to range once. Hold the button down to activate scan mode and range an entire area. Holding the button down when powering on will get you the menu where you can change your measurement value.

### 2X BRIGHTER FOR DIM CONDITIONS

50% larger Objective lens paired with an all-glass optical system bring more light to your eye for a brighter image in dark environments like areas with dense tree coverage.

### TRUE COLOR FOR ACCURATE COLOR REPRESENTATION

Fully multi-coated optics with Ultra wide band coatings provide bright, true to life colors at 6x magnification making it easier to understand the terrain.

### LONG DISTANCE RANGING WITH +/- 90 CM (+/- 3 FEET) ACCURACY

770 meter to a reflective target provide the ability to range even the longest hole.

### 5 YEAR LIFETIME IRONCLAD WARRANTY

The Sport 850 backed by the Lifetime Ironclad warranty and are engineered and manufactured to withstand the rigors of the outdoors for the lifetime of the product. Fully transferable and no receipt required.

**PURPOSE-BUILT FOR:**  
Disc Golfers demanding a high-performance rangefinder that measures in feet.

**IDEAL FOR:**  
• Disc Golf

SKU	CONFIGURATION	REFLECTIVE (METER/FEET)	BASKET (METER/FEET)
